

BRABHAM/LUKEY BIG BORE MUFFLERS

the ultimate in **BIG BORE SILENCERS** with the **Jack Brabham** **know how**

Jack Brabham, World Champion 1959, 60, 66, knows the value of a good exhaust system—

the difference it makes to the performance and power of any car and the economy in fuel consumption.

At the workshops and testing grounds of High Performance Exhaust Systems, Jack Brabham and his engineers have designed a range of big bore silencers that incorporate all the worthwhile features—custom designed and tuned for your satisfaction.

Your car will have:

SMOOTHER RUNNING, ADDED POWER, GREATER ECONOMY, LONGER SILENCER LIFE, SPORTING GT NOTE, EXCITING EYE APPEAL.

Here's why:

ALL BRABHAM exhaust systems and silencers are made from heavy gauge Aluminium coated steel, designed to outlast any other system and give you **DOUBLE** the life of your present silencer.

Silencers are packed with long strand fibre glass which lasts up to 100% longer than any other type of fibre glass packing.

The unique BRABHAM designed **BIG BORE** free flow system eliminates back pressure and increases engine performance. It gives gains of up to 4 extra horsepower and as a bonus, improved fuel consumption. In addition, just wait till you hear the GT exhaust note!

The visual aspect, so important to all owners, has not been overlooked. The **BIG BORE** pipes are curvacious and body hugging with both upswept and straight outlets available. Your car not only sounds superior, it looks it too!

OK so with all these advantages, we can't say the systems are the cheapest as well. We may be a few shillings dearer but remember, **ALL** clamps, rubbers and brackets are included in the price together with full fitting instructions and a colourful window transfer.

The extra life of the system plus the saving on fuel will more than recover your initial cost. Remember, there is no substitute for quality.

BUY THE BEST—BUY BRABHAM

When ordering Silencers please add 7/6d. P. & P.

Tail trims, reducers and clamps 1/2d. P. & P.
